Radical Deception of the Colered People.

When the Radicals are asked, say: the Philadelphia Age, to explain their reasons for declaring negro suffrage in the South, and yet voting against it in the Narth, they point to the vote in Iowa and Minnesots, where the amendment was adopted. But look at the facts in these cases. Iowa gave over 19 800 majority for negro suffrage, and sy that great achievement conferred the right of suffrage on 153 negroes. Minns-sola gave over 1000 majority for negro suffrage, and thus nobly conferred the right to vote on thirty-reven distinguished persons of color. But Radicalism is not so liberal where negroes are more abundant. In Misseuri it could have conferred the right to vote on about 171, 000 negroes, and, although the State gave a large m-jority for GRANT, it rejected newro suffrage by a majority of near 20,000. The electoral vote of Connecticut and Ohio was cost for Gen. GRANT, but these States, like Missouri, have repudiated the negro theory with reference to an alteration of the elective franchise. Where there are few negroes in the North to vote, the Badicals are willing to give them the ballo'. But where many would crowd to the polls, the privilege is withheld.
